REPORT NO.

1. Near Turnu Severin a special unit of the Rumanian state mining trust is preparing to open a new uranium mine. Soviet prospectors have found important traces of uranium-bearing formations. The freight station is to be enlarged to handle the production of the new mines, and work is going on at a vigorous pace. New rails are being laid and handling machinery installed.
2. Uranium has also been discovered near Galati. Another unit of the state mining trust will be set up to handle production.
